The more I think of your scheme the more impossible it is. Think, dearest; if you let Miss Wile go, there will not be a soul in the office who knows a thing about either our principles or methods. Then Miss Ph. is away - which means that you would be an absolute slave to the office. attending say, from eleven to five three or four days a week. Of course such a thing is out of the question & would be a waste of your time.

Do think the matter over again. I have been thinking of putting in a pretty urgent appeal about an article into the May No. of P. R. That - still being in something.
